

Summary

Seeking a career that is challenging and interesting, and lets me work on the leading areas of technology, a job that gives me opportunities to learn, innovate and enhance my skills and strengths in conjunction with company goals and objectives.

Education

BTECH

📍 BP Mandal College of Engineering, Madhepura, Bihar

📅 2018- 2022 • Graduation • Electrical And Electronics Engineering

12th

📍 Janta Highschool

📅 2016- 2018 • Intermediate • Science

10th

📍 Resonance international school

📅 2013- 2015 • High School • Science

Projects

Development of Web Application Using Maven

Conducting software analysis, Programming, Testing and debugging
Development of Controllers in Rest architecture style
Development of service layer
Dao layer
Fixing the bugs
Writing JUnit testcases for DTO , Service and Controller layer

Smart Greenhouse Monitoring System

🔗 [Project Link](#)

Developed a real-time smart greenhouse monitoring dashboard using React.js and Tailwind CSS with live sensor data streaming via Supabase WebSockets (<2s latency). Built an interactive 3D greenhouse digital twin using Three.js and React Three Fiber featuring 360° orbit controls and real-time data overlays. Integrated Google Gemini AI for plant disease detection from leaf images and implemented Google OAuth authentication with protected routes. Deployed the responsive, dark-themed application on Vercel with 99.8% uptime and optimized performance using lazy loading and code splitting

Achievements

Introduction to programming Using Python

My score is 82%

Skills

- HTML
- CSS
- Javascript
- Java
- React.js
- Python
- Problem solving
- Hibernate
- SpringBoot
- Data Structure

Certificates

Java Full Stack Development

🔗 [Certificate Link](#)

I completed the Java Full Stack Development certification from Jspiders Bangalore in October 2023, enhancing my skills in Java, Spring Boot, and database management. This certification complements my education and work experience, equipping me with the knowledge to build and deploy full-stack applications effectively.
